

## Floorstander - CRITERION TAL X2.1

The **TAL X2.1** is a refined development of the two-way principle. It performs the artifice of combining the delightful tonal and spatial qualities of a compact two-way loudspeaker with the extended bass and low-frequency dynamics of a large floor-standing unit. As in all TAL models and the [TCI 3R](#) the **TAL X2.1** is fitted with the further developed super annular high-frequency unit. In the mid / bass range we use a 17 cm pressure-cast aluminium chassis with its ultra-stiff, feather-light aluminium cone and phase plug in a two-way arrangement. A second 17 cm driver with a bone-hard carbon fibre cone is also fitted, but this unit only radiates the low frequencies, working in parallel with the bass / mid-range unit inside the sophisticated transmission line cabinet.

The net result is enormous dynamic range and precision in the bass range, characteristic of our transmission absorber lines, combined with a very low bottom limit frequency and a superb ability to handle high levels. Massive bi-amping terminals, an extremely low-loss crossover unit with a new kind of low-saturation, low-distortion coil, the cabinet with its complex damping and stiffening measures and a range of perfect surface finishes make this compact floor-standing speaker a genuine high-flyer.

### Specifications

<i>Principle</i>	2 – way – transmissionline floor stander
<i>Nominal power rating</i>	130 Watt
<i>Music power rating</i>	170 Watt
<i>Impedance</i>	4 Ohm
<i>Frequency response</i>	32 – 45000 Hz
<i>Sensitivity 90 dB/1 m</i>	2,3 Watt
<i>Bass drive unit</i>	1 x 170 mm
<i>Midrange drive unit</i>	1 x 170 mm
<i>High-frequency drive unit</i>	1 x 35 mm
<i>Crossover unit, type</i>	FSR
<i>Bi-amping</i>	yes
<i>Dimensions H x W x D</i>	90 x 22 x 33 cm
<i>Weight</i>	23 kg
<i>Colours</i>	rubbed black lacquer, silber lacquer, natural alder, natural maple, non-standard wood (extra cost option)
