

Subwoofer - **CRITERION TAL XW**

The **TAL XW** is our new active sub-woofer and can be considered as the little brother of the large **TCL W2** sub-woofer. It shares the new 260 mm bass driver with its solid aluminium cone and the identical fully featured active unit. The cabinet is extremely strong and rigid thanks to multiple internal bracing.

Although the loudspeaker is not very large, its no-compromise technology endows it with an unbelievably low, clean and accurate bass output. Just what you need to improve any stereo system, or to enhance the overall power of a surround set-up.

Specifications

<i>Principle</i>	active subwoofer (closed cabinet, sealed)
<i>Nominal power rating</i>	320 Watt
<i>Music power rating</i>	450 Watt
