

## INFORMATION

## CRITERION TR 450

The **TR 450** is a refined development of the tremendously successful TAL XM. It is a two-way compact loudspeaker, and manages the brilliant feat of combining the tonal and spatial qualities of the classic compact two-way loudspeaker with the bass underpinning and dynamic deep bass performance of larger floor-standing units to produce a delightful loudspeaker. As with all TL models, the cabinets are extremely stiff and resonance-free, because they are made of a laminated wood material. For the mid-range/deep bass area the phenomenal GREYCONE® drive unit is employed; this has an extremely low bottom limit frequency with an excellent ability to cope with extreme levels.

In the mid-range this speaker provides an incredibly free, open sound without any hint of coloration. Solid bi-amping terminals, an extremely low-loss crossover unit incorporating a new type of coil offering low saturation and distortion, and an accurately matched bass reflex system - these are the essential features of this faultless little loudspeaker.

**Specifications**

<i>Nominal power-handling</i>	90 Watt
<i>Music power-handling</i>	120 Watt
<i>Impedance</i>	4 Ohm
<i>Frequency response</i>	40 - 45000 Hz
<i>Sensibility 1 W / 1 m</i>	86 dB
<i>Bass drive-unit</i>	1 x 150 mm
<i>High frequency drive-unit</i>	1 x 35 mm
<i>Crossover frequency</i>	2200 Hz
<i>Dimensions H x W x D</i>	33 x 19 x 27
<i>Weight</i>	8 kg
<i>Finishes</i>	Bird's-eye maple wood veneer, Cherry stain,

Walnut, Silver, Black
