

INFORMATION

LIGNUM LGR 10

The **LGR 10** is a tiny little bookshelf speaker, but it is also extremely well-equipped, with an annular tweeter and a 14 cm long-throw bass / mid-range driver which shares the design of the bass / mid-range units employed in the LGS 10. As a result she is just as dynamic, natural and musical as her larger sisters, and it is only in the bass range that she cannot stoop as low nor handle as much power; nevertheless, she offers a beautifully balanced sound image. Thanks to the sophisticated laminated construction technique the cabinets of the Lignum are rigid and totally resonance-free, even though the side walls are only 10 mm thick.

The real wood surfaces are sealed all round - no gaps or edges to interrupt the perfect design. The three hardwood veneers available are cherry, walnut and maple, and they feature an impressive silk gloss finish. The black and white painted versions also have a silk-gloss finish. Upon request the Lignum-series is also available as a high gloss version.

Specifications

<i>Nominal power-handling</i>	40 W
<i>Music power-handling</i>	80 W
<i>Impedance</i>	4 Ohm
<i>Frequency response</i>	50 - 45000 Hz
<i>Power requirement (90 dB / 1m)</i>	2,6 W
<i>Bass drive unit</i>	1 x 140 mm
<i>High-frequency drive unit</i>	1 x 35 mm
<i>Crossover frequencies</i>	2000 Hz
<i>Dimensions (H x B x T)</i>	35 x 15 x 16,5 cm
<i>Weight</i>	4 kg
<i>Finishes</i>	natural maple glossy, cherry stain glossy, walnut dark glossy, white, black
