

INFORMATION

TALIS TLR 20

The **Talis TLR 20** is a true mini-speaker, but only in terms of its physical dimensions. Although it is only 11 cm wide, 11 cm deep and 23 cm tall, it sounds like a big speaker even when driven to quite high levels. The high-quality two-way arrangement consists of a bass / mid-range driver with a large magnet and aluminium cone and the annular super-tweeter. A sophisticated crossover with low bass equalisation produces a harmonious and natural sound from this high-quality hardware, and the results really are amazing.

The **TLR 20** can be used in many different ways:

as small Hi-Fi speakers, as the rear speakers in a surround system, or as a High-End satellite system in conjunction with the active sub-woofers.

Specifications

<i>Nominal power-handling</i>	35 W
<i>Music power-handling</i>	50 W
<i>Impedance</i>	4 Ohm
<i>Frequency response</i>	60 - 45000 Hz
<i>Power requirement (90 dB / 1m)</i>	3,0 W
<i>Bass / mid-range drive units</i>	1 x 80 mm
<i>High-frequency drive units</i>	1 x 35 mm
