

## INFORMATION

**TALIS TLW 4A**

When the **TLW 4A** active subwoofer goes off, it makes your head spin. T

wo extremely long-throw 26 cm (10,4") cast magnesium bass drivers and a new power amplifier produce an extremely clean, low-frequency, high pressure bass which shakes you to the core. Occupiers of old multi-storey apartments: be warned.

Down to 25 Hz and below it sends its high-calibre pressure waves pulsation right through the house.

You will hardly see the subwoofer, but you can not be unaware of the sound it makes. Our new active unit, generating more than 320 Watts nominal power into 4 Ohms, is exactly the right driving force for the missile, and it gives our small **TLS 20** and **TLR 20** speakers the pressure and bass volume which even large floor-standing speakers cannot match. The **TLW 4A** is the only model in the TALIS series which is made of laminated wood instead of aluminium.

***Specifications***

<i>Principle</i>	Active sub-woofer, bass reflex
<i>Nominal output range</i>	320 W
<i>Music output range</i>	450 W
<i>Frequency response</i>	22 – 150 Hz
	2 x 260 mm
<i>Crossover type</i>	active
<i>Crossover frequencies</i>	infinitely variable from 40 - 150 Hz
	satellite outputs
<i>Dimensions H x W x D</i>	36 x 48 x 40 cm
<i>Weight</i>	35,5 kg
<i>Colours</i>	black (RAL 9005), silver lacquer, non standard RAL colour (extra cost option)
