

Subwoofer - TALIS TLW A3

When the **TLW-A3** active sub-woofer gets moving, it raises the hairs on the back of your neck. Its pair of 26 cm cast magnesium bass units are of extremely long-throw design, and they work in tandem with a newly developed power amplifier to provide extremely clean, low bass. Our new active unit is the perfect match for this loudspeaker, and is rated at more than 120 W nominal power into 4 Ohm. When combined with the small **TLS 1** and **TLR 1** loudspeakers the **TWL-A3** provides the sort of bass pressure and solid levels which even large floor-standing loudspeakers cannot attain. The cabinet of the sub-woofer is made of laminated wood - the sole member of the Talis series not to be constructed of aluminium.

Specifications

<i>Principle</i>	Active subwoofer, bass-reflex
<i>Nominal output range</i>	125 W / 4 Ohm
<i>Music output range</i>	180 W
<i>Frequency response</i>	22 – 150 Hz 260 mm Magnesiumgusstieftöner
<i>Crossover type</i>	active
<i>Crossover frequencies</i>	40 - 150 Hz, regelbar Satellitenausgänge
<i>Besonderheiten</i>	Lautstärkeregelung, Einschaltautomatik, Phasenumkehr, Übertemperatur- und Kurzschlusschutz
<i>Dimensions H x W x D</i>	36 x 48 x 40 cm
<i>Weight</i>	26 kg
<i>Colours</i>	Black, silver
